

Summer on the Cuyahoga Employer Reflections 2024

Advantage Cleveland: Tennis & Education

We loved having our SOTC interns, Erick and Marissa, both were very involved and a valuable asset on our team this summer. Both were willing to help and jump in wherever needed and were great team players! Marissa will be an excellent teacher and Erick is going to add so much value in whatever path he chooses :).

Cleveland Museum of Art:

Aleksia was an incredible intern who was very focused. She was on top of her research and illuminated a lot of great information through her assignments. She was also very proactive and had a great collaborative spirit.

Cleveland Neighborhood Progress:

Our interns Brie and Carl accomplished so much this summer, and their enthusiasm and solid work was essential to launching LoveClevelandNeighborhoods.com, a new website where everyone can learn about ways to explore, celebrate, and invest in Cleveland's many wonderful communities. They show up, they are eager, and they are excellent and following up with questions so that they can do excellent, professional work. I couldn't be happier with our experience this summer, and I'm looking forward to being a work reference for them in the future.

Cleveland Public Market Corporation:

Marta and Diamond became invaluable members of our small but mighty team this summer. They offered not just professionalism, but true thoughtfulness in their approach to their work that usually comes with having more professional experience. They really helped us elevate our marketing program at a time where we are just getting started as an organization. We were honored to share our summer with them, and we can't wait to see where they go in the future. We're rooting for them all the way!

Cleveland Restoration Society:

Our intern was such a treasure to add to our team this summer. They were incredibly hardworking and brought some great laughs as well. We were able to tackle new projects and new ideas were brought on board.

Cleveland Transformation Alliance:

Our intern from Summer On The Cuyahoga was phenomenal. Each year, we are incredibly impressed by the talent and professionalism of our interns and are honored to have been a part of their career growth journey. The speed, accuracy, and creativity that they put into their assigned projects are refreshing and such an asset to us as the employer.

Foundation Investment Partners:

Connor began his internship with FIP showing great enthusiasm for PE and dove right into the tasks he was given. Whether he was working in the office or from home during his time at FIP, he fulfilled all tasks/jobs and even shared additional ideas he could contribute if needed. Connor showed great dedication and work ethic, and any firm/company that he goes to after college will have a great addition to the team.

Rock & Roll Hall of Fame:

The interns we found with the SOTC program this year accomplished some amazing work this summer, which is something we have come to expect through our experience with the program.

Tec Inc. Engineering & Design:

Trang was a pleasure to have work in the office this summer. She was a quick learner and enjoyed the engineering work she was doing. Trang was a huge help when one of our full-time engineers left on maternity leave in June. Although she was quiet, she did open up over the summer.

The Mezzanine Fund:

What a fantastic summer with a great group of interns. We enjoyed SOTC's commitment and look forward to seeing the lasting impact of this experience on their future careers.

The Music Settlement:

Right from the start, Mark was passionate and committed. Over the weeks, his confidence blossomed and you could tell he felt right at home. In his role, Mark assisted multiple faculty members, who were all grateful for his dedication and support. We had a wonderful summer together!

West Park Kamm's Neighborhood Development:

Every summer we recruit interns through the SOTC program and every year we have great interns! Syd and Sophie were exceptional interns and were vital to the execution of our Farmers Market this summer. We are so grateful to them for their hard work and the enthusiasm and energy they brought to our team. WPKND looks forward to working with SOTC again next summer!
